AIR CONDITIONER CLEANER

Cleans, refreshes and kills odour-causing bacteria and fungi in automotive air conditioning systems.

- Refreshing odour neutralising foaming cleaner.
- Revitalising “waterfall” fragrance lasts for up to one week.

Available in 300ml aerosol.

ATF BOOSTER

Replenishes additives in old automatic transmission fluid (ATF), extending useful life and ensuring smooth and optimal functioning.

- Excellent anti-wear properties, providing additional protection to components and improved friction performance for enhanced driver comfort.
- Compatible with all automatic transmission fluids (ATF).
- Available in 250ml aero can.

ATF FLUSH

New fluid deserves a clean transmission. Cleans and prepares automatic transmissions for new fluid by removing sludge and varnish deposits from the system.

- Ensures optimum performance of the new fluid.
- Compatible with all automatic transmission fluids (ATF) and safe on all seals.

Available in 250ml aero can.

BATTERY TERMINAL PROTECTOR

Provides a dry, durable acrylic coating which prevents acid corrosion. Apply to clean terminals.

- Protects battery terminals and all metal surfaces against corrosion.

Available in 200ml aerosol in clear, red or blue colour.

BELT DRESSING

Increases traction on all types and shapes of belt drives. Quick drying synthetic film gives longer life to old and glazed belts, and prevents hardening, cracking and staining.

- Adheres to all belt materials without attracting dust or dirt.
- For use on V, flat and conveyor belts.
- Prevents slippage and extends useful belt life.
- Not suitable for use on timing belts.

Available in 400ml aerosol.

BICYCLE CHAIN & LINKAGE SPRAY

Penetrates, lubricates and protects chains, linkages and cables. Penetrates like oil, lubricates like grease.

- Rapidly penetrates deep into chain linkages, forming a tough water-resistant lubricating film which is resistant to fling-off.
- Contains a soluble molybdenum compound for reduced wear.
- Provides lasting protection under demanding conditions.
- Suitable for all chain types.

Available in 200ml aerosol.

BICYCLE CLEANER & PROTECTOR

Lubricates, cleans and protects against corrosion.

- Lubricates to eliminate squeaks.
- Water and moisture displacer.
- Penetrates and releases tight or rusted nuts, bolts and linkages.
- The thin protective film is compatible with oils and greases, and will not interfere with fine tolerances.

Available in 200ml aerosol.

BITUMEN PRIMER

Liquid bitumen solution designed to penetrate and seal porous surfaces, protect bare metal surfaces against corrosion and act as a waterproofing agent.

- Protects the chassis, undercarriage and inside of wheel arches against stone chipping and corrosion.
- Suitable for cars, trucks, trailers and caravans.

Available in 500ml aerosol and 1litre tin.

BRAKE CLEANER

Heavy duty brake system cleaning spray for cleaning drum & disc brake assemblies, brake cables, rotors & disc pad / drum lining surfaces without disassembly.

- Reduces disc brake squeal.
- Fast drying with no residue.
- Removes brake pad phenolic resins, brake pad dust and other brake pad degradation products.

Available in 500ml and 840ml aerosols.

CARB CLEANER

Cleans internally and externally, leaving a lubricating film for linkages and rose joints.

- Removes gums, varnish and carbon deposits from carburettors internally and externally without dismantling.
- Cleans linkages, automatic chokes, PCV valves and jets.
- A clean carburettor can improve performance, fuel economy and reduce emissions.

Available in 350ml and 500ml aerosols.

CARBURETTOR & FUEL SYSTEM CLEANER

Cleans carburettors and fuel systems internally while you drive. Used as a petrol / gasoline additive.

- A clean fuel system can improve performance, fuel economy and reduce emissions.
- One bottle treats up to 75 litres of fuel.
- For optimum results, repeat with every tank of fuel.
- Recommended for sluggish engines.

Available in 375ml bottle.

CATALYTIC CONVERTOR CLEANER

Cleans while you drive, restoring fuel efficiency and optimising performance.

- Significantly reduces combustion chamber, intake valve and port fuel injector deposits.
- Prolongs catalytic convertor life and reduces emissions.
- Improves drivability by reducing surging, stalling and rough idling.
- Removes moisture and protects against corrosion.
- One bottle treats up to 75 litres of fuel.
- For optimum results repeat every 5000km or as required.

Available in 375ml aero can.

CHAIN & LINKAGE SPRAY

High quality non-staining, water-resistant chain and linkage spray. Penetrates like oil, lubricates like grease for chains, linkages and cables. Contains a soluble molybdenum compound for reduced wear.

- Performance lubricant for motorcycle chains, cables, seat runners, hinges, locks, window mechanisms and wheel jacks.
- Domestic lubrication of hinges, electric garage door and gate chains, gears and slides, wheel barrow and lawnmower wheels.
- 360° valve technology allows spraying at all angles, including upside down.
- Suitable for all chain types.

Available in 200ml and 400ml aerosols.

CHAIN WAX

High quality blend of waxes and extreme pressure additives for all motorcycle chains, especially off-road bikes, as it does not attract dirt.

- Prolongs chain life by protecting against wear, water and corrosion.
- Penetrates deeply into linkages.
- Adheres strongly to the chain, eliminating fling-off.

Available in 200ml and 400ml aerosols.

COCKPIT

Protective, anti-static spray with cleaning action for all plastic, vinyl and rubber surfaces.

- Recommended for dashboards, interior panels, trimming, bumpers, spoilers, tyres, window and door rubbers, etc.
- Renews lustre on old, faded plastic components.
- Minimises dust settling due to static.

Available in 300ml aerosol in these exciting fragrances:

Wild Cherry:	Red cap
Wild Lavender:	Purple cap
Cool Secret:	Blue cap
Green Apple:	Green cap
Musk:	Pink cap
New Car:	Yellow cap

COCKPIT EXTREME

Contains high levels of silicone oil to restore and shine dull or faded plastic, vinyl and rubber surfaces.

- Quickly cleans, renews and protects dashboards, interior panels, trimming, bumpers, spoilers, tyres, window and door rubbers, etc.
- Renews lustre on old, faded plastic components.
- Minimises dust settling due to static.

Available in 500ml aerosol in these exciting fragrances:

Wild Cherry:	Red cap
Lavender:	Purple cap
Green Apple:	Green cap

COPPER COMPOUND (ANTI-SEIZE)

Prevents seizure of nuts and bolts up to 1100°C or under corrosive conditions. Eliminates disc pad squeal.

- Permits firmer tightening and easier loosening of threaded connections subjected to high temperatures and / or corrosive conditions, i.e. wheel studs, spark plug threads, cylinder head bolts and exhaust system nuts.
- Not suitable for use on stainless steel.
- For stainless steel use **Nickel Compound** or **Chrome Compound**.
- Conforms to US MILITARY SPECIFICATION - MIL-A-907E.

Available in 100g tube, 500g tin, 500g brush-top tin and 400ml aerosol.

COPPER GASKET SEALER

Allows gasket to be positioned before assembling and takes up surface irregularities. Excellent conductor of heat. Must be used in conjunction with gaskets.

- Gasket sealing and positioning spray that becomes tacky approx. 2 minutes after application.
- Gaskets can be re-aligned for up to one hour.
- The metallic copper content acts as a filling agent, smoothing out any surface irregularities, allowing the gasket to be tightened more evenly and giving a leak resistant seal.

Available in 400ml aerosol.

CV JOINT GREASE

Highly water-resistant with excellent adhesion properties. Minimal fling-off when rubber boot is torn. High shock absorbing lubricant.

- Lubrication of universal and constant velocity joints of front wheel drive vehicles and for slow and fast moving plain and anti-friction bearings.
- Contains Molybdenum Disulphide (MoS_2) which extends life.

Available in 90g tube.

DIESEL INJECTOR CLEANER & FUEL CONDITIONER

Cleans and protects the entire fuel system while you drive.

- A clean fuel system can improve performance, fuel economy and reduce emissions.
- Dissolves varnish / lacquers and reduces carbon deposits.
- Boosts cetane number by 2-3 units.
- One bottle treats up to 75 litres of diesel.
- Add before filling up - reduced foam formation for faster fill-ups.
- For optimum results repeat with every tank of diesel.

Available in 375ml bottle.

DPF CLEANER

Regeneration catalyst for blocked diesel particulate filters (DPF). Significantly lowers soot burn off temperatures, especially helpful in city driving conditions where the required regeneration temperatures are not reached.

- Reduces soot build-up on sensors and particulate filters.
- Cleans while you drive.
- No dismantling required.
- One bottle treats up to 75 litres of diesel.
- For optimum results repeat with every tank of diesel.

Available in 375ml bottle.

ENGINE CLEANER & DEGREASER RED (SOLVENT-BASED)

Solvent-based emulsion degreaser for heavy duty applications. Effectively removes greases, oils and other soils.

- Degreaser for engine components, concrete floors and other surfaces.
- Does not damage paint, rubber or plastic.

Available in 500ml bottle, 350ml aerosol, 5 litre tin & 20 litre drum.

ENGINE CLEANER & DEGREASER BLUE (WATER-BASED)

Water-based, environmentally-friendly and biodegradable degreaser that effectively removes greases, oils and other soils.

- Degreaser for engine components, concrete floors and other surfaces.
- Powerful degreasing action.

Available in 500ml bottle, 5 litre and 20 litre plastic containers.

ENGINE FLUSH

New motor oil deserves a clean engine. Removes carbon and gum deposits internally without dismantling the engine.

- Treats up to 5 litres engine oil capacity in both petrol and diesel engines.
- Not recommended for use in high mileage engines never previously flushed.

Available in 375ml bottle.

EXHAUST & MANIFOLD PAINT

High-temperature, durable exhaust and manifold paint.

- Heat resistant up to 650°C.
- Quick drying and hardens completely at room temperature.
- Scuff and chip resistant coating.
- Also suitable for other high heat applications such as fire places and barbeques.

Available in Matt Black or Silver in 300ml aerosol.

EXTREME KLEEN

Powerful, environmentally friendly, multi-purpose detergent cleaner for use in the workshop, home and industry. Cleans anything & everything.

- Contains no abrasives, ammonia or bleach.
- A disinfectant cleaner that removes stubborn stains, oil, grease, grit and grime.
- Household cleaning applications: appliances, kitchens, floors, bathrooms, sinks, mirrors and windows, tiles, fabric spot remover.
- Outdoor cleaning applications: cars, engines, workshop and gardening tools.

Available in a 750ml trigger and refill pack, 5 litre and 20 litre plastic containers.

FISHING TACKLE PROTECTOR

High-performance fishing tackle protector and leisure equipment multi-purpose lubricant, cleaner and water / moisture displacer.

- Safe for use on monofilament, EVA grips, rods, seals, etc.
- Leaves long-lasting, water-displacing, corrosion-inhibiting protective film.
- Cleans, lubricates, penetrates and prevents corrosion.
- Displaces moisture from outboard engines and off-road / quad bike ignition systems.
- Also suitable for use on other outdoor adventure equipment such as boats, trailers, caravans, bicycles, motorcycles, quad bikes, etc.

Available in 200ml aerosol.

FLAW & CRACK DETECTOR SYSTEM

Set of 3 products for detecting cracks and flaws on the surfaces of metals.

No. 1 CLEANER / No. 2 PENETRANT / No. 3 DEVELOPER.

- Fast, economical and reliable method of visual detection of metal surface defects.
- Will show up cracks as red lines and porous areas as red pin points on all types of metals including aluminium, nickel, stainless steel and titanium.
- Inspection and checking of tools or incoming materials for defects and hairline fractures.
- Checking for potential fatigue cracks or flaws during maintenance where parts are subjected to heavy stress.
- Inspection of welded areas that must be free of flaws.

No. 1 and 3, 350ml, and No. 2, 300ml aerosol.

GASKET CLEANER

Powerful blend of solvents formulated to quickly and easily remove remains of old seals and gaskets, paints, varnishes, adhesives, carbon deposits and baked-on oil and grease from metal surfaces.

- Acts by softening the material, making it easy to scrape off.
- The gel-like consistency prevents run-off from the desired location, allowing for effective cleaning.
- Particularly suitable for removing coatings from aluminium and other soft metals where excessive scraping could damage the surface.
- Contains no methylene chloride or N-Methylpyrrolidone
- Available in 400ml aerosol.

GEARBOX & DIFFERENTIAL LUBRICANT SUPPLEMENT

Specialised oil supplement for manual gearboxes and differential systems. The Molybdenum Disulphide (MoS_2) plating action on gears provides added protection to all components, extending life, reducing friction and noise, and ensuring smoother gear changes and functioning.

- Gives excellent performance in gearboxes, steering boxes and differential transmissions in passenger, transport vehicles and earthmoving equipment, etc.
- Increases gearbox and differential reliability.
- Makes no significant alteration to the characteristics of the oil to which it is added.
- Not suitable for use in automatic transmissions and limited slip differentials.

Available in 100ml tube.

HAND CLEANER ORIGINAL & CITRUS

High quality hand cleaners. Original contains grit, lanolin and is antiseptic to clean, moisturise and protect the skin. Citrus contains detergents, moisturisers and grit to readily remove ingrained dirt.

- Contains disinfectants as well as detergents and therefore cleans effectively.
- Conditions the skin, leaving hands feeling soft and moisturised after use.
- Citrus has the added cleaning power of D-Limonene.
- Cleans wet or dry dirty hands effectively.

Available in 500g plastic tub and 5kg plastic container.

HI-SPOT BLUE

Non-drying, blue-coloured, waxy high-spot locator.

- Locator of high-spots or contact areas on gears, valve seats, bearings and other critical areas during manufacture or re-assembly.
- Leaves a blue, waxy film that allows detection as shiny metallic high-spots or streaks when mating surfaces are moved or turned relative to one another, e.g. gear meshing and alignment, valve seating, bearing and shaft high-spots, and critical contact areas.

Available in 300ml aerosol.

LEAD COMPENSATOR

Formulated to replace the lead protection not provided by low and non-lead fuels while at the same time cleaning the carburettor, petrol injectors and fuel system.

- Lubrication of valve seats is necessary to prevent valve recession under high stress operating conditions with low lead or lead-free fuels.
- One bottle treats up to 75 litres of fuel.

Available in 250ml bottle

LEAK DOCTOR

Multi-functional oil additive especially suitable for use in high mileage or older vehicles. The special additives work in all oils to stop oil leakage caused by hard and brittle old seals, and help recover "like new" performance.

- Contains soluble molybdenum which prevents wear and improves viscosity at high temperatures.
- Reduces oil leaks by softening and expanding old seals.
- Reduces oil consumption and exhaust smoke in worn motors.
- Increases engine compression and improves lubrication.
- Cushions regular impact areas such as tappets, cams and gears

Available in 250ml aero can.

LEATHER TREATMENT

Water-based emulsion containing lanolin, carnauba waxes and leather fragrance to clean, protect and restore fine leather and plastic e.g. leather car seats, leather lounge suites, luggage, handbags, shoes and other leather goods.

- Suitable for all leather surfaces except suede.
- Protects from ultra violet rays that cause cracking, fading and dulling.
- Cleans and restores the original natural leather shine.
- Repels water.

Available in 500ml bottle.

LECTRO KLEEN

A sophisticated cleaner for the electronics industry. Fast drying, leaves no residue and will not attack plastics. Excellent cleaning performance in the following applications:

- Electronics: computers, PC boards, relays, vehicle sensors.
- Electrical: switches, electro-mechanical devices.
- Telecoms: TV, transceivers, connectors.
- Avionics: radar, navigational equipment.
- Home: DVD and Blue Ray players, audio equipment, TV sets.
- Office: telephone, switchboards, calculators, computer keyboards and cash registers.

Available in 200ml and 400ml aerosols.

LIQUID GREASE

High quality, heavy duty multi-purpose grease spray containing Molybdenum Disulphide (MoS_2). Penetrates like oil, lubricates like grease for chains, linkages and cables. Excellent performance in the following applications:

- Transport vehicles uses: cables, linkages, springs, hinges, locks and wheel jacks.
- Domestic uses: manual and automated garage doors and gates (tracks, hinges, chains, rollers and gears).
- Wheel barrow and lawnmower wheels.

Available in 400ml aerosol.

LUBRICATING SWITCH CLEANER

High performance cleaner and lubricant for all switches including light switches, dashboard stalks, relays, brushes, circuit breakers, rheostats, sliding switches and switch contacts of all types.

- Flushes away dirt, grease and other contaminants.
- Evaporates quickly, leaving a protective lubricating film, restoring the contact and preventing corrosion of metal parts.
- Increases contact area, reduces resistance and prevents arcing.

Available in 200ml and 400ml aerosols.

MAG WHEEL & TYRE CLEANER

Powerful alloy wheel and tyre cleaner with a unique formulation of specially combined detergents that lift off dirt and grime easily and safely.

- Effective cleaning of all types of alloy wheels.
- Quick-breaking cleaning foam that's tough on dirt and brake residues, but gentle on wheels.
- Provides protective layer to retard the adhesion of dirt, making future cleaning easier.
- Deep cleans tyre sidewalls.

Available in 400ml aerosol.

MECHANIC BLUE

Blue coloured engineering high-spot locator for mating surfaces such as bearings and shafts. High-spots will be shown as bright streaks when shaft is turned in the bearing.

- Gear meshing and alignment.
- Correct valve seating.
- Differential wear pattern locator.
- Critical contact areas.

Available in 30g tube.

NON-MELT GREASE

High quality non-melting multi-purpose grease, suitable for automotive, household and industrial use. Contains Molybdenum Disulphide (MoS_2) that ensures reduced wear and can sustain high loads under the most demanding conditions.

- For use where high temperature and / or heavy load conditions exist.
- Excellent water and corrosion resistance properties.
- Suitable for working temperatures up to 160°C with intermittent peak use up to 200°C .

Available in 100g tube.

OIL TREATMENT

Engine oil additive which improves viscosity, reduces oil consumption and exhaust smoke caused by oil consumption.

- For use in petrol and diesel engines.
- Contains soluble molybdenum anti-wear agent that reduces friction between metal parts.
- Excellent for worn engines.
- Cushions regular impact areas such as tappets, cams and gears.

Available in 375ml bottle.

PENETRATING SPRAY

Highest quality penetrating spray with soluble molybdenum. Clean to use as it is not black. Excellent lubricating properties.

- Quickly penetrates and frees seized and corroded nuts, bolts, rusty locks, door hinges and handles, sticky carburetors, throttle linkages and fittings, etc.
- Will loosen rust, tar, grease, dirt, carbon deposits, etc.

Available in 200ml and 350ml aerosols.

PETROL INJECTOR CLEANER

Ensures peak performance of fuel system. Cleans blocked injectors and extends their life.

- A clean fuel system can improve performance, fuel economy and reduce emissions.
- One bottle treats up to 75 litres of fuel.
- For optimum results, repeat with every tank of fuel.

Available in 375ml bottle.

POWER STEERING BOOSTER

Power steering fluid supplement which replenishes additives in old fluid, extending useful life and ensuring smooth and optimal functioning.

- Excellent anti-wear properties provide additional protection for components.
- Improves friction performance for enhanced driver comfort.
- Compatible with all power steering fluids.

Available in 250ml aero can.

POWER STEERING FLUSH

New fluid deserves a clean system. Cleans and prepares power steering systems for new fluid by removing sludge and varnish deposits from the system.

- Ensures optimum performance of the new fluid.
- Compatible with all power steering fluids.
- Safe on all seals and contains no harmful solvents.

Available in 250ml aero can.

QUICK START

Instant starting aid with upper cylinder lubricant for all engines when starting is a problem in cold and damp weather.

- Specially formulated to vaporise in cold and damp conditions, giving first time starting.
- Suitable for all petrol, diesel and paraffin engines.

Available in 350ml aerosol.

RADIATOR FLUSH

Effectively aids the removal of accumulated rust, scale and sludge inside radiators.

- Not harmful to hoses and gaskets.
- Safe on aluminium blocks and cylinder heads.

Available in 375ml bottle.

RADIATOR LONG LIFE

Prolongs radiator life by inhibiting rust and scale formation in cooling systems.

- High performance corrosion inhibitor package.
- Protects the cooling system.
- Compatible with anti-freeze.
- Safe to use with all radiator materials.

Available in 375ml bottle.

RADIATOR SEALER & CONDITIONER

Seals minor leaks, reduces / stops head gasket seepage and protects cooling system against corrosion.

- Safe for use in aluminium engine blocks and cylinder heads.
- Compatible with anti-freeze.
- For use in all types of cooling systems up to 10 litre coolant capacity.

Available in 375ml bottle.

RUBBER GREASE

Rubber and plastic lubrication solution. Vegetable oil-based grease fortified with extreme pressure and anti-corrosion additives.

- Compatible with all plastics, natural and synthetic rubbers.
- Water-resistant.
- Not compatible with other greases.

Available in 500g plastic tub.

SILICONE PASTE and SPRAY

Colourless, clean, food grade lubricants also renew and restore dull faded plastic and rubber parts such as bumpers, trim, door and window rubbers, etc. Lubricates and displaces moisture around the workshop, home and on sporting equipment.

- Paste: lubricates refrigerator seals, car door seals and seat rails, swimming pool rubbers and seals, plastic gears and mechanisms and electric cables drawn through conduit.
- Paste: water and corrosion inhibitor which seals electrical equipment against the ingress of moisture, protects outdoor electrical fittings, screw threads and automobile battery terminals against corrosion.
- Spray: multi-purpose, clean, tasteless, colourless, odourless rubber and plastic lubricant and protector.
- NSF Registered (CATEGORY H1).

Paste available in 100g tube and 500g tin, aerosol available in 200ml and 400ml.

SMOKE DOCTOR

Reduces exhaust smoke caused by oil consumption in worn engines.

- Engine oil viscosity improver.
- Improves lubrication, reduces friction and wear between metal parts.
- Cushions regular impact areas such as tappets, cams and gears.
- Keeps seals elastic.
- For use in petrol and diesel engines.

Available in 500ml bottle.

SPARK (MULTI-PURPOSE LUBRICANT)

Displaces moisture, penetrates and releases seized and corroded parts, cleans and protects against corrosion.

- Lubricates: locks, latches, hinges, blinds, curtain rails, chains, bicycles, prams, office chairs, window mechanisms, etc.
- Water and moisture displacer: from engines, outboard engines, electric motors, starter motors, ignition systems, distributors, spark plugs, etc.
- Penetrates and releases: frees tight or rusted nuts, bolts, locks, linkages, etc.
- Cleans and protects against corrosion: for firearms, tools, fishing tackle, bicycles, office appliances, household, etc.
- Dielectric strength of up to 38 000 volts.
- 360° valve technology allows spraying at all angles, including upside down.
- Contains no silicone.

Available in 150ml standard nozzle and 300ml with two-way nozzle aerosol.

START UP

Instant starting aid with upper cylinder lubricant for all engines when starting is a problem in cold and damp weather.

- Specially formulated to vaporise in cold and damp conditions, giving first time starting.
- Suitable for all petrol, diesel and paraffin engines.

Available in 350ml aerosol.

SYNTHETIC ULTRA OIL TREATMENT

Synthetic oil, automatic transmission and differential treatment. Ultra efficient lubricant coating that remains effective under extreme heat and pressure.

- Engine: improves lubrication, reducing wear of piston rings, cylinders & valves, promoting more economical motoring. Suitable for use with synthetic and mineral oils in both petrol and diesel engines.
- Automatic transmission and differential: attains maximum friction reduction without causing clutch slippage. Suitable for use in both conventional and limited-slip differentials. Maintains peak viscosity / temperature relationship of the oil for increased period of service. Reduces wear and noise.

Available in 250ml aero can.

TYRE FIX and TYRE FIX 4x4

Effectively seals punctures and re-inflates tubes and tyres. Used as an emergency product. A puncture repair kit that allows you to get going quickly without a wheel change.

- 1 x 340ml can is enough for 1 x car or motorcycle tyre. For larger tyres as found on 4x4s, use 1 x 600ml can per tyre.
- Not suitable for large holes, rim leaks, tyre side-wall damage or faulty valves.
- Suitable for tubed or tubeless tyres.
- Can also be used on motorcycle tubed tyres.
- Not suitable for bicycle tyres.

Available in 340ml and 600ml (4x4) aerosols.

VALVE & COMBUSTION CHAMBER CLEANER

Ensures peak performance of fuel system. Cleans carbon deposits on valves and inside combustion chambers. Cleans as you drive.

- A clean fuel system can improve performance, fuel economy and reduce emissions.
- One bottle treats up to 75 litres of fuel.
- For optimum results, repeat with every tank of fuel.

Available in 375ml bottle.

WINDSCREEN CLEANER

Removes grease, dirt, grime and insect residues from windscreens.

- Ensures smear-free vision day and night for optimum driving visibility.
- Add to windscreen washer reservoir and top up with water.
- 4 treatments per 500ml bottle.
- 1 treatment per 50ml (Concentrate).

Available in 500ml and 50ml (Concentrate) bottles.

WONDER WASH

A unique blend of shampoos and waxes designed to enhance your vehicle paintwork.

- Cleans and shines all paint finishes.
- Easy to use two-in-one shampoo and wax.
- Waxes as you wash, providing protection against the elements.
- Concentrated - up to 10 washes per bottle.

Available in 500ml bottle and 5 litre plastic container.

WONDER WAX

Liquid polish for all paint finishes. High quality blend of polymers and waxes designed to ensure maximum durability and appearance of vehicle paintwork.

- Suitable for all paint finishes.
- Removes minor scratches, swirl marks, oxidation and grime.
- Restores paint lustre with ease.

Available in 500ml bottle and 5 litre plastic container.
