

PENETRATING SPRAY

Spanjaard Penetrating Spray quickly penetrates and frees seized and corroded metal components, e.g. nuts, bolts, locks, hinges, handles and linkages. Excellent lubricating and anti-seize properties. Loosens rust/corrosion, tar, grease, dirt and carbon deposits. Also available in an industrial grade non-flammable version suitable for use where explosive or fire hazard conditions exist, such as in industry/mining.

APPLICATIONS

- Readily frees seized/corroded metal components.
- Loosens threaded fittings with ease.
- Lubrication properties aid in preventing seizure of metal parts.
- Excellent penetrant for use in industrial, automotive and household settings.
- Easy application with a jet spray and an extension tube for pin-point accuracy where necessary.
- 360° valve technology allows spraying at all angles including upside down.

DIRECTIONS FOR USE

(applicable to both grades)

1. Spray the parts liberally and allow to penetrate, lubricate and loosen rust and dirt.
2. If necessary tap parts lightly, then loosen.
3. For more severe applications, soak components overnight.

PROPERTIES

	Penetrating Spray	Penetrating Spray (Non-Flammable)
Colour:	Brown liquid.	Brown liquid.
Features:	<ul style="list-style-type: none"> • Contains soluble molybdenum for optimum performance. • Lubricating nature of base component further assists in anti-seize characteristics. 	<ul style="list-style-type: none"> • Contains soluble molybdenum for optimum performance. • Fast acting. Evaporates quickly after penetration and dissolving of dirt. Check compatibility with plastics/rubbers before use.

PACKAGING

Penetrating Spray 350 ml aerosol
 Penetrating Spray (Non-Flammable) 400 g aerosol

Revision: 110523
