

RADIATOR SEALER & CONDITIONER

Spanjaard Radiator Sealer and Conditioner protects against corrosion and seals entire cooling system should small leaks occur. Seals minor leaks and head gasket seepage.

APPLICATIONS

- For use in all types of cooling systems.
- Treats up to 10 litres coolant capacity.
- Safe for use in aluminium engine blocks and cylinder heads.

DIRECTIONS FOR USE

1. Engine must be cool. Start the engine.
2. Remove radiator water cap. Radiator must be cool, no steam.
3. Shake bottle well and slowly add contents to the radiator water while engine is running.
4. Replace cap and run engine until warm to ensure even distribution.
