

## LITHIUM GENERAL PURPOSE GREASE

**Spanjaard Lithium General Purpose Grease** is a cost-effective extreme pressure (EP) grease for the everyday lubrication or automotive, industrial, agricultural and light construction applications where high-performance or extreme conditions are not the primary concern. Fortified with EP/AW, rust and corrosion inhibitors.

### APPLICATIONS

- Automotive chassis points, universal joints, suspension components, and light-duty wheel bearings.
- General industrial plain and anti-friction bearings in electric motors, fans, pumps, conveyors, and machinery.
- Agricultural equipment (tractors, implements, pivot points) and construction tools under moderate loads.
- Door hinges, slides, cables, and other low-to-medium speed/mechanical components requiring EP protection.

### DIRECTIONS FOR USE

- Remove old grease, dirt, grime, water, or rust from the fitting, bearing, joint, or surface using a rag, degreaser, or brake cleaner
- Apply a thin, even coat where needed. Wipe off excess to avoid flinging or collecting dust.
- For bearings work a generous amount of grease into the bearing cage/rollers by hand or with a bearing packer tool. Fill the bearing housing approximately 1/3 to 1/2 full.

### TYPICAL PHYSICAL AND PERFORMANCE PROPERTIES

<b>Features:</b>	<ul style="list-style-type: none"> <li>• Appearance: Beige/Brown paste</li> <li>• Thickener: Lithium Soap</li> <li>• NLGI Grade: 2</li> <li>• Worked Penetration 1/10mm: 265-295</li> <li>• Base Oil Viscosity (40°C): 200 cSt</li> <li>• Timken OK Load (kg): 27</li> <li>• Drop Point: 180°C</li> <li>• Operating Temperature: -20 to 120 °C</li> </ul>
------------------	---

### PACKAGING

500g Jar

4.5kg bucket

18kg bucket

Revision: 160226

For safety and storage information, please refer to the safety data sheet (SDS).
