

BONDFORCE CONTACT ADHESIVE

BONDFORCE CONTACT ADHESIVE is a high-performance, fast-tacking neoprene-based contact adhesive ideal for bonding a wide variety of materials including rubber, leather, wood, laminates, cork, fabric and many plastics.

DIRECTIONS FOR USE

1. Ensure surfaces are clean, dry and free from dust, grease or old adhesive
2. Apply a thin, even coat to both surfaces using a brush, roller or spatula
3. Allow the adhesive to dry until tacky (usually 5-15 minutes depending on the temperature and humidity)
4. Carefully align the parts together and press them together firmly with even pressure. Use in a well-ventilated area

PROPERTIES

Appearance:	Amber
Features:	Initial Grab: 10—15 minutes Handling Strength: 1—2 hours Full Cure: 24hours • Quick-drying formula • Non-staining & clean application • Multi-surface bonding (paper, wood, glass, plastic, rubber, cardboard)
